COMPANY OVERVIEW

SNK delivers innovative and comprehensive services to the defence industry, leveraging 40+ years of expertise for efficient, client-focused solutions and over a decade of expertise in the defence industry through our ex-defence personnel.

Our commitment to “all trades under one umbrella” ensures innovative, cost-efficient solutions for every client. With a problem-solving approach and a client-centric focus, we deliver reliable results that meet the highest standards of the defence sector.

PURPOSE

- Utilise over a decade of experience in defence projects and operations.
- Proudly support Australia's veterans, with a workforce that reflects the values and skills that define Australia's military excellence.
- Deliver efficient, practical and effective solutions for defence needs.
- Projects meet stringent standards, timelines and quality expectations.
- Results delivered with reliability and unmatched quality assurance.

CAPABILITIES

- Expertise in military requirements, operational environments and naval systems.
- In-depth knowledge of naval engineering systems and assets for mechanical, electrical and hydraulic system repairs including hull and superstructures.
- Electrical installations and upgrades, maintenance and project management.
- Design, construct and refurbish defence infrastructure facilities including roads, office and accommodation blocks.
- Industrial blast and paint utilising the latest products on the market, with access to Belzona and nano-prep technologies.

WHY US

SNK has evolved from a proud family business into a trusted Australian provider, leveraging local expertise and industry experts to deliver exceptional results for our people and clients.

We are supported by our industry-leading accreditations, including our ISOs in Quality Management, Environmental Management and Occupational Health & Safety.

We proudly support Australia's veterans, hiring ex-defence personnel who bring over a decade of industry experience to our workforce.
